About RB Milestone Group

"RB Milestone Group (RBMG) is a Wall Street based equity research firm that provides a variety of equity research solutions through its proprietary platform The Portal Network. This web-based platform is Wall Street's premier interactive research hub and has significantly proven to outperform the effectiveness of traditional research solutions and coverage communications efforts. RBMG only accepts a select number of companies into their coverage universe in a given year, and those who are admitted into the RB Milestone Portfolio are deemed significantly undervalued and likely to outperform indexes and competitors. To date, all of the companies that RB Milestone Group has admitted into its mining/resources coverage have averaged an increase of 41.54% on their share price since their coverage began, and of these companies, 100% remain at share prices exceeding their share price at coverage inception".
